EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Michael Voorhees on July 26, 2004.

2. The application has been amended as follows:

In the Claims

Claim 1, line 8, the following has been inserted after "position":

--wherein said knife is positioned proximate said cutting table, --.

Claim 21, line 10, the following has been inserted after "position":

--wherein said knife is positioned proximate said cutting table, --;

line 12, --guide-- has been inserted before "mechanism";

line 19, "second" has been deleted.

Remarks

3. The above changes were agreed upon to further clarify the claims. In particular, claims 1 and 21 (line 10) were changed to further clarify what is intended by the

Art Unit: 3724

recitation "cut position". The other changes in claim 21 were made to correct informalities.

Additional Prior Art

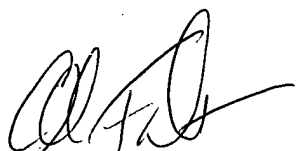

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The newly-cited prior art disclose inventions which have features similar to the claimed invention. However, these inventions, each taken alone or in combination with the prior art of record, do not teach or fairly suggest the claimed invention. It is noted that Maltby discloses a shear with a linkage-type guide mechanism. However, Maltby does not teach or suggest the claimed subject matter for at least the following reasons. For example regarding claims 1 and 21, Maltby does not disclose a guide mechanism for moving a knife from at least two different starting positions to a common cut position. For example regarding claim 13, Maltby does not disclose a knife holder and links that form a collapsible parallelogram.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clark F. Dexter whose telephone number is (703)308-1404. The examiner can be reached Monday through Friday during normal business hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan N. Shoap can be reached on (703)308-1082. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
